The personal obligation for delinquent assessments shall not pass to a successor in title unless expressly assumed by them, but shall remain a lien upon the property, unless paid.

Section 2. Membership Fees and Purpose. In order to pay the cost of carrying out its responsibilities hereunder, including the maintenance of the

roads as provided in Article IV of the Declaration of Restrictions, the Association shall levy. Subdivision, whether or not the lot owner is an active member of the Association, Lots owned by Declarant or by a builder prior to occupancy shall only be subject to fees, dues or assessments on each lot for the cost of maintenance of the streets and roads as set forth in Article IV of the Declaration of Restrictions. Section 3. Special Assessments for Capital Improvements. In addition to the annual assessments authorized above and special assessments as provided by law, the Association may levy against each owner, in any assessment year, a special assessment applicable to that year only, for the purpose of defraying, in whole or in part, the cost of any reconstruction, major repair or replacement of the Subdivision streets and roads or of any improvement upon the Common Areas, including any pedestrian footbridge and other areas under the control of the Association, including Subdivision entrances, retention, detention and sedimentation ponds, the Subdivision landscaping,

fixtures and personal property, provided that any such assessment shall have the assent of two-thirds (2/3rds) of the votes of members who are then entitled to vote, voting in person or by proxy, at a meeting duly called for that purpose.

Section 4. Notice and Quorum for Actions Authorized Under Section 3. Written notice of any meeting called for the purpose of taking any action authorized under Section 4 shall be sent to all members entitled to vote not less than fifteen (15) days nor more than thirty (30) days in advance of the meeting. At the first such meeting called, the presence of members or of proxies entitled to cast forty (40%) percent of all votes of each class of membership shall constitute a quorum. If the required quorum is not present, another meeting may be called subject to the same notice requirement, and the required quorum at the subsequent meeting shall be one-half (1/2) of the required quorum at the preceding meeting. No subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

Section 5. Rate of Assessment. Both the general and the special assessments shall be set by the Board of Directors at the uniform rate for the owners of all Lots and may be collected on a monthly or an annual basis. However, notwithstanding anything to the contrary contained herein or elsewhere in this Declaration, no assessment shall be levied against the Declarant, or any builder who has purchased one or more Lots for the purpose of construction of a residence thereon for sale to an Owner.

Section 6. Date of Commencement of Annual Assessments: Due Dates. The annual assessments provided for herein shall commence as to all Lots on the first day of the month following the conveyance of the first Lot to an Owner. A conveyance to a builder who has purchased a Lot for the purpose of constructing a residence thereon for sale to an Owner shall not be deemed to be a conveyance to an Owner. The first annual assessment shall be adjusted according to the number of months remaining in the calendar year. The Board of Directors shall fix the amount of the annual assessment against each Lot at least thirty (30) days in advance of each annual assessment period. Written notice of the annual assessment shall be sent to every Owner subject thereto. The due dates shall be established by the Board of Directors. The Association shall, upon demand, and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether the assessments on a specified Lot have been paid. A properly executed certificate of the Association as to the status of assessments on a Lot is binding upon the Association as of the date of its issuance.

Section 7. Effect of Nonpayment of Assessments: Remedies of the Association. In order to defray the costs of collection, any assessment not paid in full within thirty (30) days after its due date shall bear interest from the due date at the highest lawful interest rate per annum until paid and shall be subject to a late payment fee in the amount of Fifty and 00/100 (\$50.00) Dollars. The Association may bring an action at law against the Owner personally obligated to pay the same, or foreclose the lien against such Owner's lot. The Owner shall be responsible to pay for any attorneys

fees and other expenses incurred by the Association in collecting the amount due. No Owner may waive or otherwise escape liability for the assessments provided for herein by non-use of the Common Areas or abandonment of his lot.

Section 8. Exempt Property. All property exempt from taxation by state or local governments and dedicated for public use shall be exempt from the assessments, charge and lien created herein, including the Subdivision roads, if such are ever conveyed or dedicated to a governmental and/or municipal body and/or agency and accepted for maintenance by such entity.

Section 9. subordination of the Lien to Mortgages. The lien of the assessments provided for herein shall be subordinate to the lien of any first mortgage. Sale or transfer of any lot shall not affect the assessment lien. The sale or transfer of any lot pursuant to mortgage foreclosure proceedings or a judgment of foreclosure, shall extinguish the lien of such assessments as to payments which became due prior to such foreclosure sale but shall not relieve such lot from liability for any future assessments thereafter becoming due or from the lien thereafter created.

Section 10. Liability of Board Members. Neither any Member of the Board nor the Declarant shall be personally liable to any Owner, or to any other party, for the damage, loss or prejudice suffered or claimed on account of any act or omission of the Association, the Board, the Declarant or any other representatives or employees of the Association, to the fullest extent permitted by law.

Section 11. Transfer of Subdivision Streets to a Governmental, Regulatory or Municipal Body: The Association shall have the right, at any time, to transfer and convey to any governmental, regulatory or municipal body, all right, title and interest in and to the Subdivision streets and roads, free of encumbrance, provided such entity will accept all future responsibility and obligation for the repair and maintenance of such roads. Upon conveyance, transfer or dedication of the Subdivision roads and acceptance by such body, the Association shall have no further responsibility, obligation or liability for their repair and/or maintenance.

ARTICLE VI

Section 4. Quorum. The presence at the meeting of the members entitled to cast, or of proxies entitled to cast, one-tenth (1/10th) of the votes of each class of membership shall constitute a quorum for any action except as otherwise provided in the Articles of Incorporation, the Declaration, or these By-Laws. If, however, such quorum shall not be present or represented at any meeting, the members entitled to vote thereat shall have power to adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum as aforesaid shall be present or be represented.

ARTICLE II - ARCHITECTURAL CONTROL

No house, building, fence, wall, deck, swimming pool, outbuilding or other structure, landscaping or exterior improvement shall be commenced, erected or maintained on any lot, nor shall any exterior addition to or change or alteration therein or change in the exterior appearance thereof or change in landscaping be made until the plans and specifications showing the nature, kind, size, shape, height, colors, materials, topography and location of the same on the lot shall have been submitted to and approved in writing by the Architectural Control Committee, (the "Committee"), composed of three (3) persons appointed by the Declarant. Each member of the Committee shall serve for a period of one (1) year or until replaced by a subsequent appointee.

A. Plans and specifications for final approval by the Committee shall include the following:

1. Complete plans and specifications sufficient to secure a building permit in the Township of Canton, including a dimensioned plot plan showing lot and placement of residence, garage, outbuildings and fences, (if any).
2. Front elevation, side elevations and rear elevation of building, plus elevations of walls and fences, (if any).
3. A perspective drawing, if deemed necessary by the Committee, to interpret adequately the exterior design.
4. Data as to size, materials, colors and texture of all exteriors including roof coverings, fences, (if any), and walls.
5. One set of blueprints shall be left with the Committee until construction is completed.

B. Preliminary plans may first be submitted for preliminary approval.

C. No approval by the Committee shall be valid if the structure or improvement violates any of the restrictions set forth in Article III and IV of this Declaration, except in cases where waivers have been granted as provided for in said Articles.

D. The Committee may disapprove plans because of non-compliance with any of the restrictions set forth in Articles III through VI of this Declaration or because of reasonable dissatisfaction with the grading and drainage plan, the location of the structure on the lot, the materials used, proportions, shape, the color scheme, the finish, design, height, style, repetition, or appropriateness of the proposed improvement or alteration or because of any matter or thing, which in the reasonable judgment of the Committee, would render the proposed improvement or alteration inharmonious or out of keeping with the objections of the Committee or with improvements erected on other lots in the Subdivision. All owners, by accepting ownership of their lot, acknowledge that the primary purpose for providing for architectural control is to insure the proper and harmonious development of the Subdivision in order to maximize the aesthetic beauty of the Subdivision and its blending with the surrounding area. To this end, Declarant or the Architectural Control Committee, as the case may be, shall be deemed to have broad discretion in terms of determining what dwellings, fences, walls, hedges, structures or improvements will be permitted and are in keeping with the aesthetic beauty and desirability of the Subdivision and are otherwise consistent with the purposes of these Restrictions.

E. In the event the Committee fails to approve or disapprove plans within thirty (30) days after submission, then such approval will not be required, but all other limitations, conditions and restrictions set forth in this Declaration shall apply and remain in force as to such plans.

F. Committee approval shall be deemed given if the plans and specifications submitted for approval are marked or stamped as having been finally approved by the Committee and are dated and signed by two (2) members of the Committee who were validly serving on the Committee on the date of such approval.

G. In no event shall either Declarant or the Committee have any liability whatsoever to anyone for their approval or disapproval of plans, drawings, specifications, elevations or the dwellings, fences, walls, hedges or other structures subject thereto, whether such alleged liability is based on negligence, tort, express or implied contract, fiduciary duty or otherwise. By way of example, neither Declarant nor the Committee shall have liability to anyone for approval of plans, specifications, structures or the like which are not in conformity with the provisions of this Declaration, or for disapproving plans, specifications, structures or the like which arguably are in conformity with the provisions hereof. In addition, the Committee shall not be required to pass upon any technical aspects of construction or whether construction meets zoning, building code or safety requirements. The Committee's approval shall merely mean that the plans are in compliance with the intent and purpose of these Restrictions and shall not be construed as to imply that the Committee has passed upon any other aspects of the plans, nor shall such approval imply that the building plans or specifications comply with zoning, building codes, safety requirements or regulations.

H. At the time that plans are submitted for approval, the party submitting the plans shall pay Declarant the sum of Two Hundred Fifty and

100 (\$250.00). Dollars to defray the costs of architectural control activities.

I. At such time as all of the lots in the Subdivision are sold by Declarant and dwellings are erected thereon, or at such earlier time as Declarant may, in its sole discretion, elect, Declarant may assign, transfer and delegate architectural control responsibilities to the Association or to any other party or entity. At that time, the Association or such other party or entity shall become responsible for electing or appointing the Committee members and Declarant shall have no further responsibilities or duties.

A. Use of Lots. All lots shall be used and occupied for single family residence only and no building of any kind whatsoever shall be erected, re-erected, moved or maintained thereon except one single family dwelling house and appurtenant buildings on each lot, as hereinafter provided. Such dwelling house shall be designed and erected for occupation by a single private family. A private attached garage for the sole use of the respective owner or occupant of the lot upon which said garage is erected, shall be erected and maintained.

B. Character and Size of Buildings; Exterior surface of Dwelling. All houses are to be completed in accordance with the minimum size houses allowed under the former Special Land Use Ordinance and as provided in the Consent judgment: a one (1) story, single family residence shall not be less than 1,200 square feet which has a basement, or 1,500 square feet without a basement. Any home that is one and one-half (IV) or two (2) stories shall be brick on the first floor and may have brick, brick veneer, wood and/or stone in any combination on such other exterior portions, stucco, aluminum siding and/or ledge rock (but not vinyl siding or texture 1-11) may also be used alone or in combination for the remaining exterior portions of the home. A single story home shall be constructed of brick, brick veneer, wood and/or stone in any combination. Approval of any other variance by both the Committee and the Township of Canton Board of Appeals permitting front, rear or side yards smaller or greater than the above shall be deemed a valid waiver of this Restriction. No variance, however, shall be effective unless it is also agreed- to in writing by the Committee.

No structures shall be permitted in the twenty-five foot {25'} landscaped buffer area along Lilley Road. In order to give a more curvilinear appearance on straight streets, there shall be staggered setbacks of up to five feet (5') on straight streets, with a minimum offset of at least five feet (5') from the setback designated or established on the adjacent lots; provided that any staggered setback in the front of a lot which increases the front setback shall also correspondingly decrease the rear yard setback by an additional five feet (5') to offset the front setback and to maintain the usable building envelopes allowed under former Section 6.03(D) of the Township Zoning Ordinances, all in an effort to achieve a certain staggered effect.

D. Minimum Width. The minimum dwelling width shall be subject to the discretion of the Committee, which shall attempt to maintain uniform standards throughout the Subdivision.

f. Animals. No farm animals, livestock or wild animals shall be kept, bred or harbored on any lot, nor shall any animals be kept or bred for commercial purposes. Any dog kept by a resident on his premises shall be kept on a leash or in a dog run or pen, and shall not be allowed to run loose or unattended. No dog runs or pens shall be permitted to be erected or maintained unless located within the rear yard (only) adjacent to a wall of the main dwelling or garage and facing the rear or the interior of the lot, nor shall such runs or pens extend beyond the end of the dwelling or garage into the side yard. Written permission for such dog run(s) must be obtained from the Architectural Control Committee.

No fence, wall or hedge shall be erected, grown or maintained in front of or along the front building line of a lot.

Rear fencing shall be allowed for all lots whose rear yard abuts Stonegate and Century Subdivisions in accordance with the Township's Fence Ordinance. However, there shall be no fencing, siding or backing to Lilley Road. Appropriate fencing for in-ground swimming pools shall be allowed pursuant to the requirements of the Township Ordinances.

G. Easements.

Easements for the installation and maintenance of utilities, underground television cable, sewer lines, water mains, drainage lines, surface drainage swales, or any other improvements which would serve the residents of the Subdivision, as established by Declarant, its successors and assigns, are shown on the recorded plat. The use of all or a part of such easements may, at any time or times hereafter, be granted or assigned by Declarant, its successors or assigns, to any person, firm, corporation, governmental unit or agency which furnishes such services or utilities.

3. No buildings may be constructed or maintained over or on any easements; however, after the aforementioned utilities have been installed, planting, fencing, (where permitted), or other lot line improvements shall be allowed, so long as they do not violate the provisions of this Article and do not interfere with, obstruct, hinder or impair the drainage plan of the Subdivision, and so long as access be granted, without charge or liability for damages, for the installation and/or maintenance of the utilities, drainage lines and/or additional facilities; and provided as to Lots 58 and 67 of Covington Square Subdivision, such plantings and shrubs do not interfere with the visibility or maintenance of signs placed within such areas by Declarant.

4. Private easements for public utilities have been granted and reserved on the plat of the Subdivision.

H. Wells. No well shall be dug, installed or constructed on any lot.

I. Temporary Structures. Trailers, tents, shacks, sheds, barns, or any temporary buildings of any description whatsoever, are expressly prohibited and no temporary occupancy shall be permitted in unfinished residential buildings. However, the erection of a temporary storage building

Any such sign shall be kept clean and in good repair during the period of its maintenance on said lot, and shall in no event be placed and maintained nearer than twenty-five (25) feet from the front lot line. The provisions of this paragraph shall not apply to such signs as may be installed or erected on any lot by Declarant, or any builder which it may designate during the initial period of construction of houses, or during such periods as any residence is used as a model or for display purposes.

M. Destruction of Building by Fire, etc. Any debris resulting from the destruction in whole or in part of any dwelling or building on any lot shall be removed with all reasonable dispatch from such lot in order to prevent an unsightly condition.

N. Landscaping. Upon the completion of a residence on any of the lots, the owner thereof, (and the word "owner", as used in this connection, is intended to mean the party who purchases a residence from the builder thereof, and each subsequent purchaser), shall cause the lot owned by him to be finish-graded and seeded or sodded and suitably landscaped as soon after the completion of construction as weather permits, but not later than four (4) months from such date. STORM WATER DRAINAGE SYSTEM

A. **RESPONSIBILITIES.** The Association shall have the sole responsibility to finance and administer and to employ a competent contractor to operate and maintain the following elements of the storm Water Drainage and Management System:

Detention Basin, including Low-Flow Channel and Standpipe Outlet.

Storm Sewers and Appurtenances (traps, catch basins, manholes and inlets, excluding sump pump leads).

B. **MANPOWER/EQUIPMENT/MATERIALS AND PERFORMANCE LEVELS.** The type of manpower, equipment, materials and performance levels associated with the operation and maintenance of the elements of the Storm Water Drainage and Management System is described below.

1. **Storm Sewers.** A properly equipped operation and maintenance crew for storm sewer and associated appurtenances shall consist of the following:

- i. 1 Vacu-truck and operation;
- ii. 1 Laborer with shovel and rake.

2. **Detention Basin.** A properly equipped crew shall consist of the following:

- i. 1 Five yard dump truck and operator;
- ii. 1 Mower and operator;
- iii. 1 Laborer with shovel and rake;
- iv. 1 Vacu-truck and operator.

C. **FREQUENCY OF OPERATION AND MAINTENANCE FUNCTIONS.** The frequency of operation and maintenance for each element of the Storm Water Drainage and Maintenance System are different from one another. A description of the need for operation and maintenance for each of the facilities is as follows:

1. **Storm Sewers.** The major component that affects the operation of a storm sewer is the build-up of sediments and the subsequent collection of litter such as paper, rags and small branches. The frequency at which storm sewers experience this problem is dependent, for the most part, on the velocities in the pipe and the street maintenance program. Typically, storm sewers are relatively flat and consequently have minimal velocities which are conducive to deposition of sediment. Most streets are cleaned at least twice per year. Based upon minimal velocities and typical street maintenance operations, the frequency at which storm sewers and the catch basin traps shall be inspected and cleaned is once every two years.

2. **Detention Basin.** The major component that affects the operation of the basin is the maintenance of the turf section and removal of accumulated sediment and debris which are deposited within the bottom of the basin. The

Frequency at which the turf requires maintenance dictates the frequency at which maintenance functions are performed. Grass mowing and weed cutting should be performed once every two (2) weeks during the months of May through October. The standpipe should be inspected once a year and after heavy rainstorms. Extreme care should be exercised to insure that the outlet holes in the standpipe do not become clogged with sediment. If necessary, the chock stone around the standpipe should be removed and replaced with clean, fresh material.

D. TERMINATION OF MAINTENANCE PROGRAM. The required operation and maintenance program set forth in this Article IX shall automatically cease two (2) years from the date of construction of the Storm Water Drainage and Management System, i.e., storm sewers and detention basins.
